- Non-Conforming Uses Draft Ordinance
  - Staff Report given by Amanda Smeller- To address previous concerns about the C-1 zoning, the automotive and manufacturing/production businesses established prior to December 7, 1979 they are permitted in the C-1 code that was passed April 15, 2013. They are not considered non-conforming.

  - Discussion took place on the topic of defining major/minor enlargement/intensification. No action was taken.

- Gateway Rezone 7:42
  - Staff Report given by Amanda Smeller- Proposed comp text change to allow auto oriented uses in C-1 Gateway District. We discussed gateway area rezone because those are lots that are big enough that would work for auto uses (drive-through’s). This was discussed with a few of the property owners. Would like to get thoughts from planning commission before contacting property owners. Does planning commission want to initiate this? 7:48:36 PM
Commissioner Simpson would like this to be discussed with City Council at the yearly goal meeting before moving forward. No action was taken.

Simpson proposed pool property be changed to PQPI. No action was taken.

DISCUSSION

- Sign Ordinance Staff Report from Amanda Smeller- Belmont Loop has a building that has 4 leasable spaces. Lexar homes applied and received a permit last year. Do we want to allow multi tenant buildings to have more signage abilities?
  - Recommendation was made to add wording to the sign code to state that the building owner was responsible for signage distribution between tenants so it meets the sign code. This was mutually agreed upon.
  - There was a request made by Commissioner Simpson to put in a definition for “misc. character” in section 17.49 G of the sign code.
  - There was a request made by Commission Simpson to define secondary frontage in the sign code.
- Lot sizes
  - Should the City establish maximums for residential lots? It was agreed that there is no need to establish maximums; we can always say no if someone wanted to split up into bigger lot sizes.
- Review of City projects 9:20:13 PM
  - Should City projects that are proposed by the City be reviewed by the City or go to the Hearings Examiner?
  - Major projects that involve shorelines, etc. will have to go to Hearings Examiner anyway. Do we want to pay the Hearings Examiner for small projects, such as sidewalks?
  - Commissioner Simpson requested City permits be pulled from the last two years to review.
  - This topic was discussed and no decision was made.
- Project updates-
  - Shorelines- We had a meeting with the TAC and partnership. We are slowly moving forward. We have new consultants that came in to fill in the gaps of what has not been done.
  - Comp plans-We have had some meetings with Clark County and other jurisdictions. We will be doing a lot in house but will need some outside help.
  - American Paper Converting is doing an additional 120,000 sf building.
  - 12 lot sub division on S. Pekin Rd.

Staff Report: Sign Ordinance Modifications

Date: January 9, 2014  
To: Planning Commission  
From: Amanda Smeller, Community Development Planner  
Re: Sign Ordinance Modifications – Civil Infraction language and property owner responsibility

During the December 2013 Planning Commission meeting, there was discussion regarding allowable sign size for multi-tenant buildings. The current code does not allow additional sign area for buildings with more than one tenant; rather they all have to share the allowable area as specified in the code. The Commission did not feel this was necessary, but preferred the language in the ordinance to be enhanced to specify the responsibility of the property owner in regards to signs, sign maintenance, and sizing between multi-tenant buildings. Staff has drafted new language and placed it in Section 17.52.030, General Requirements.

Further, City Attorney Bill Eling has drafted language for the civil infraction/violation portion of the sign chapter.

The original proposed changes are still highlighted in yellow. The recent additions (since the last meeting) are highlighted in blue.
DRAFT ORDINANCE – SIGN CODE AMENDMENTS

Language shown in **yellow highlight** and *italics* is proposed to be added to the existing code. Language that is **struck through** is proposed to be removed.

During the December 2013 Planning Commission meeting, there was discussion in regards to lot size maximums. Currently, the City does not have lot maximums in any zone, and there are a number of large lot residential properties, especially in the eastern portion of the City. The Planning Commission chose not to impose lot size maximums at this time.

However, further discussion ensued regarding size allowances for accessory buildings. Currently the code allows 1,000 square feet for garages and carports, and up to 150 square feet for all other types of accessory structures. There is not a limit to the number of each allowed, provided the lot coverage is met. The Commission indicated they may want to establish a percentage of lot size allowed for accessory buildings, rather than a hard number like the code currently employs. If this is the direction the Commission would like to go, a determination as to the percentage needs to be determined.

Woodland’s code does have lot coverage maximums in all residential zones. This may be a way to control the size of accessory buildings and other uses without having to establish an actual number or percentage.

Examples:

The City of Battle Ground establishes a lot coverage maximum. It does not call out a size maximum for accessory buildings but states that all accessory buildings/structures combined cannot exceed the size of the primary structure. Only one accessory building is allowed.

The City of Camas allows an accessory structure to occupy up to 30% of a rear yard, but cannot exceed the overall lot coverage.

The City of Vancouver determines a detached accessory building to be used for tool and storage sheds, play houses and similar uses and allows up to 50% coverage of the rear or side yard for a detached accessory building. There is a 120 square foot size limit.
Staff Report: Hearing Examiner Review of City Applications

Date: January 9, 2014
To: Planning Commission
From: Amanda Smeller, Community Development Planner
Re: Hearing Examiner review of City project proposals – further discussion

The City of Woodland will be submitting future applications for projects that, under our current code, only require a staff level review. Site Plan Reviews, SEPA, and Critical Area Permits are among the permit reviews completed by staff. These would only go before the Hearing Examiner if there is a shoreline element, a conditional use element, or a major variance requested as well.

Attached is the table from Section 19.08.030 of the Woodland Municipal Code in regards to review and decision authority.

Staff feels it would make more sense, and be less of a conflict of interest, for a City project proposal to go before the Hearing Examiner. The City should not make a decision on a City project. Also attached is an email response from the Municipal Research and Services Center.

At the December 2013 Planning Commission meeting, there was discussion in regards to the types and number of applications the City has submitted for review over the last two years. These applications are as follows:

2013
- Site Plan Review application for a new Public Works Storage Building. The review was done by staff and the decision was made by staff.
- Site Plan Review, Shoreline Substantial Development Permit, SEPA, and Critical Areas Permit for the Ranney Well improvements. The review for the entire project was done by staff and the decision was made by the Hearing Examiner.
- Rezone and Comprehensive Plan Map Amendment for five City owned parcels (the parcels where the Public Works building is and the new police station is, as well as the parcels on which the future Scott Hill Park project is to be located). Review was done by staff and the final decision was made by the City Council.
- Scott Hill Park Boundary Line Adjustment. The review was done by staff and the decision was made by staff.
- Site Plan Review and SEPA for the new police station. The review was done by staff and the decision was made by staff.

2012
- Scott Hill Road Boundary Line Adjustment Exemption. The review was done by staff and the decision was made by staff.
