PROJECT COMMENT FORM

1. Do you... live, work, or play in Woodland? Check all that apply.

- Live in Woodland
- Live in Clark County
- Live in Cowlitz County
- Work in Woodland
- Visit Woodland
- Shop in Woodland

2. Which improvement concept do you like best?

- Improved traffic signals
- Roundabouts ← #1!! no doubt!

Please provide your comments:

Roundabouts are safer & provide better traffic flow. Probably a lot cheaper to operate & maintain in the long run. Plus, they can be decorated nicely.

Additional space for comments on back of form.

own two businesses on Roundabouts! exit 21. Are the way to go!

2. Which improvement concept do you like best?

- Improved traffic signals
- Roundabouts

Do them BIG like LaCenter did!

Please provide your comments:

We own two businesses in Woodland since 1982 and 1986, and we cannot vote, but we have always thought roundabouts were the way to make traveling in Woodland easier.

Additional space for comments on back of form.

2. Which improvement concept do you like best?

- Improved traffic signals
- Roundabouts

Please provide your comments:

Exit 21 N. bound, need better lighting overall + ~~single~~ signs.
 A pole sign or overhead white sign w/ arrows designating L/straight
 lane and R turn only lane. Would be good to put Lane split at top
 of off ramp + 2 lanes on actual off ramp.

Additional space for comments on back of form.

Comments:

Most people in this town are not against roundabouts per se, but believe that most of our traffic issues around rush hour could be solved with a couple strategically placed lanes, such as the southbound freeway entrance lane. That has needed to happen for a while, I'm glad you put that into your designs. The freeway exit lane to CC street bridge is also a brilliant addition, and will certainly help alleviate some of the severe rush hour exit traffic.

If roundabouts end up happening, which I beg you to reconsider that idea, all I would ask is for no roundabout go in next to the tourist information center on Goerig St. The amount of semi trucks and trucks heading to the slaughterhouse and Portco packaging would they be forced to drive into and through downtown Woodland, which poses issues for many residents in those neighborhoods. As of now the slaughterhouse truck, White Timber trucks and other semi trucks take the "long way around", and choose Lakeshore Dr. to steer clear of traffic, parked street cars and most of all, pedestrians.

The improved traffic signals and added lanes board you guys developed is **flawless**, and I believe I speak for most of the citizens in this growing town that that is the best choice for us.

Thank you so much for your time, and we all appreciate your efforts.

♥Katie

- Shop in Woodland

2. Which improvement concept do you like best?

- Improved traffic signals
- Roundabouts

Please provide your comments:

MOST urgent traffic safety issue is the
signal at Exit 21 off ramp. The signal lights
& lane markings are not in agreement. The left
signal should have green light & green arrow for
left lane. Right signal should have green arrow for right
turn only.

PROJECT COMMENT FORM

1. **Do you... live, work, or play in Woodland?** Check all that apply.

- Live in Woodland
- Live in Clark County
- Live in Cowlitz County
- Work in Woodland
- Visit Woodland
- Shop in Woodland

2. **Which improvement concept do you like best?**

- Improved traffic signals
- Roundabouts

Please provide your comments:

community development and planning should be done like playing to win a game a chess - NOT reactive. or when traffic ~~around~~ surpasses the capacity of the roundabouts then what do we do? There is ~~no~~ lesser

Additional space for comments on back of form. →

1. **Do you... live, work, or play in Woodland?** *Check all that apply.*

- Live in Woodland
- Live in Clark County
- Live in Cowlitz County
- Work in Woodland
- Visit Woodland
- Shop in Woodland

2. **Which improvement concept do you like best?**

- Improved traffic signals
- Roundabouts

Please provide your comments:

With the new library building at the corner of Lakeshore & Gorrig safe pedestrian crossing is important. Roundabout = well designed - will keep traffic flowing & allow pedestrian crossing.

PROJECT COMMENT FORM**

1. Do you... live, work, or play in Woodland? Check all that apply.

- Live in Woodland
- Live in Clark County
- Live in Cowlitz County
- Work in Woodland
- Visit Woodland
- Shop in Woodland

2. Which improvement concept do you like best?

- Improved traffic signals
- Roundabouts !!!

Please provide your comments:

Roundabouts are safer, cheaper, and more efficient than traffic lights.
 A new library at Lake shore & Buckeye will increase foot traffic from children leaving nearby schools & going to library. A roundabout at that intersection would help protect them from vehicular traffic.

Comments:

About Southbound Exit 21: Traffic coming off freeway needs to be slowed down. It shouldn't be difficult to add a speed bump on the off-ramp or a stop sign at its juncture with town streets.

CONCERNED ABOUT LARGE TRUCKS
WITH ROUNDABOUTS. I EXPECT
PROBLEMS. I ASSUME YOU HAVE
CONSIDERED THAT IN STUDIES. IF NOT
THEN I VOTE FOR SIGNALS.

no preference

Please provide your comments:

I would like to see consideration for connecting Lakeshore Dr to CC st bridge by going under I-5 at the N Fork Lewis River like we used to (exit and on ramps near bridge). This would allow for South residents to avoid the lights/circles going to Clark County.

Comments:

I would like to see the Northbound I-5
off ramp extended to the Lewis River Bridge
with an "exit" only lane or ~~both~~ possibly
2 lanes exit.

Roundabouts— Another Safe Intersection

An Educational Activity Book

Welcome!

Roundabouts are just another safe intersection. They are different than traffic signals or stop signs because they use their circular shape and yield signs to control traffic.

This activity book has been designed to introduce YOU to roundabouts. With roundabouts becoming more and more popular throughout the United States and especially in your state, you need to know how to walk and bike safely through and around them.

Enjoy the many activities in this workbook while you learn about “Roundabouts, Another Safe Intersection.”

SafeRoutes

Oregon Safe Routes To School

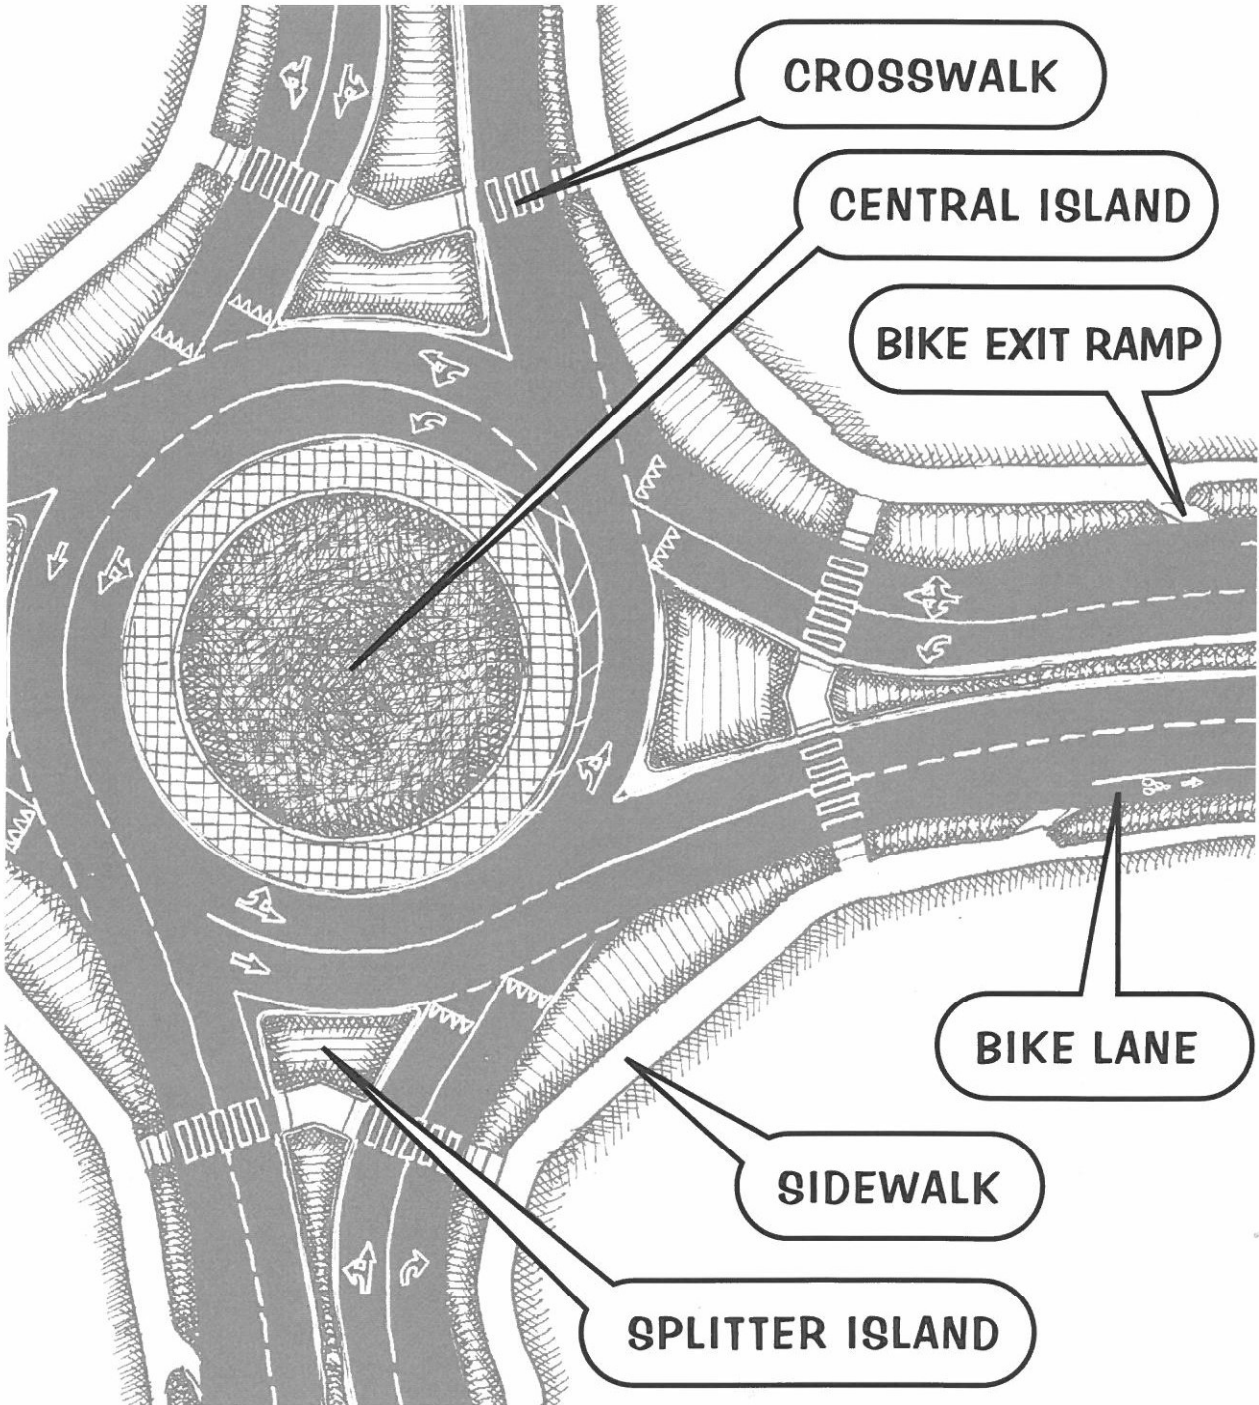

Note for teachers and parents: a lesson guide is provided at the back of this activity book, and answers are given on the City's website: www.ci.bend.or.us/roundabouts.

The targeted age group is 3rd, 4th, and 5th graders.

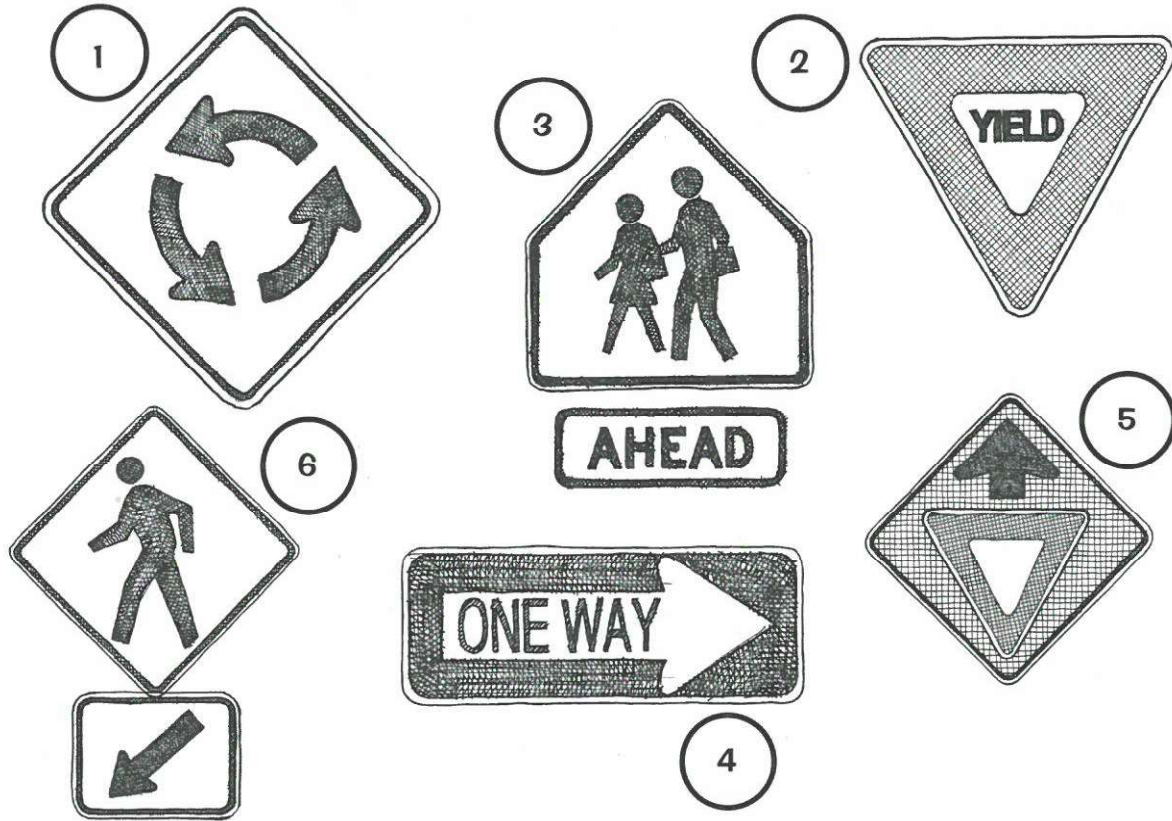

Lesson 1:

Basic Features and Their Names

Lesson 2:

SIGNS in the Roundabout

Fill in the sign number that matches the name and description given below

Name of Sign	Description
<input checked="" type="checkbox"/> School Zone	Alerts drivers they are approaching a school area and must slow down (Hint: pentagon shaped).
<input checked="" type="checkbox"/> Yield	Requires motorists to slow or stop to avoid other vehicles at an intersection (Hint: triangular shaped).
<input checked="" type="checkbox"/> Circular Intersection	Warns drivers they are approaching a circular intersection (Hint: chasing arrows).
<input checked="" type="checkbox"/> Pedestrian Crossing	Alerts drivers of pedestrian crossing (Hint: shows exactly where a pedestrian should cross).
<input checked="" type="checkbox"/> Yield Ahead	Warns drivers there is a yield ahead (Hint: square sign).
<input checked="" type="checkbox"/> One Way	Requires travel in one direction only (Hint: the arrow points the way).

Lesson 2 Practice:

True or False?

You should only cross the street in the crosswalk.

T F

Drivers can travel in either direction when they see this One-Way sign.

T F

School zones require extra caution from drivers. Drivers are required to slow down in a school zone.

T F

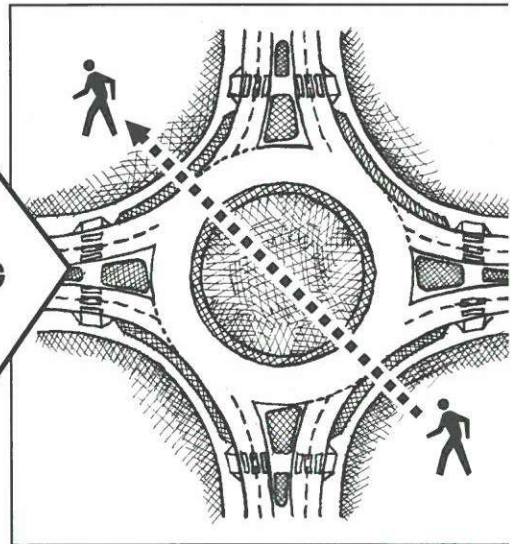

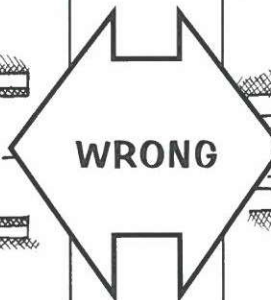

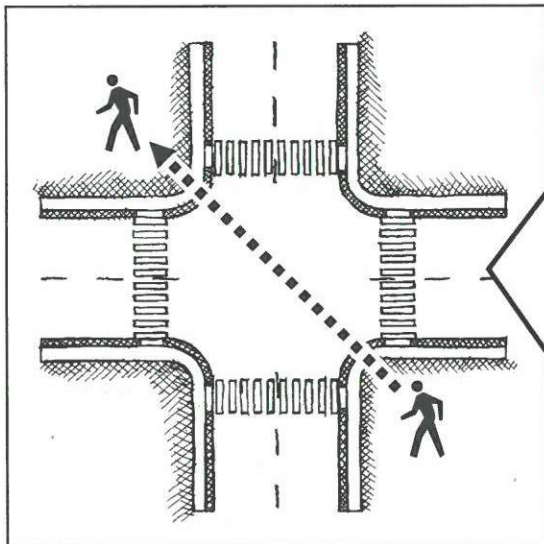

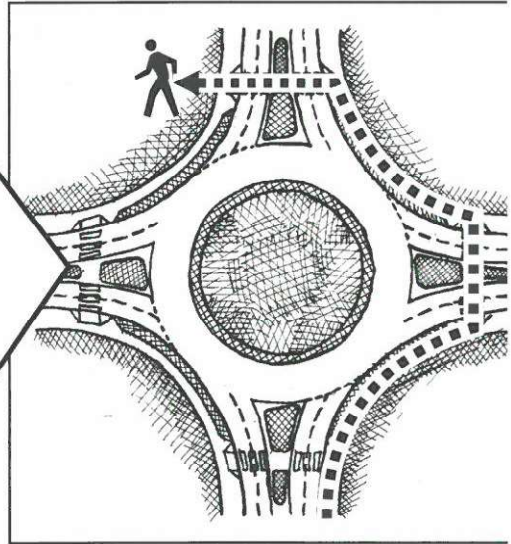

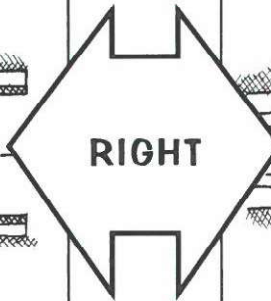

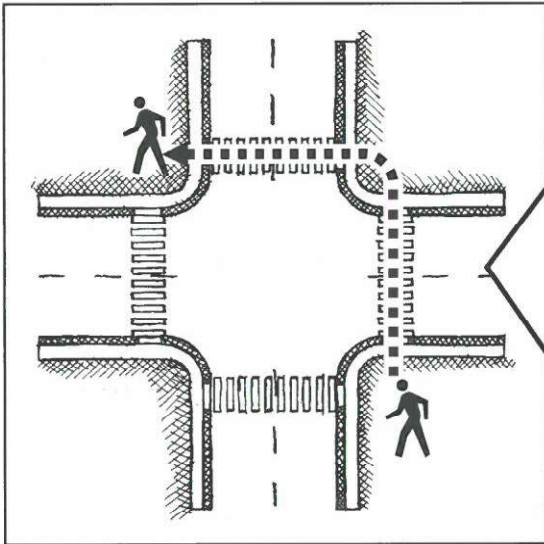

This warning sign tells drivers to prepare for the roundabout.

T F

Lesson 3:

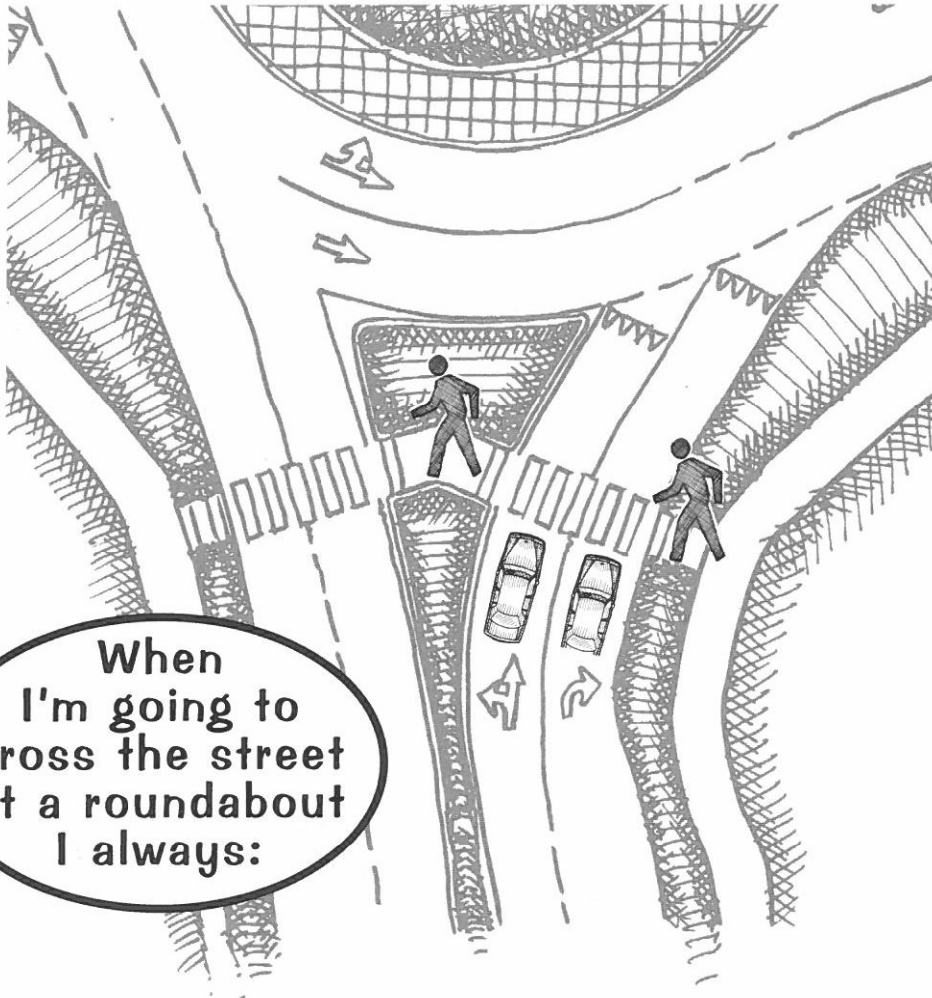

Pedestrians, Make Safe Choices!

DON'T FORGET, CROSS ONLY IN THE CROSSWALKS!

Lesson 3 Practice:

Pedestrians in the Roundabout

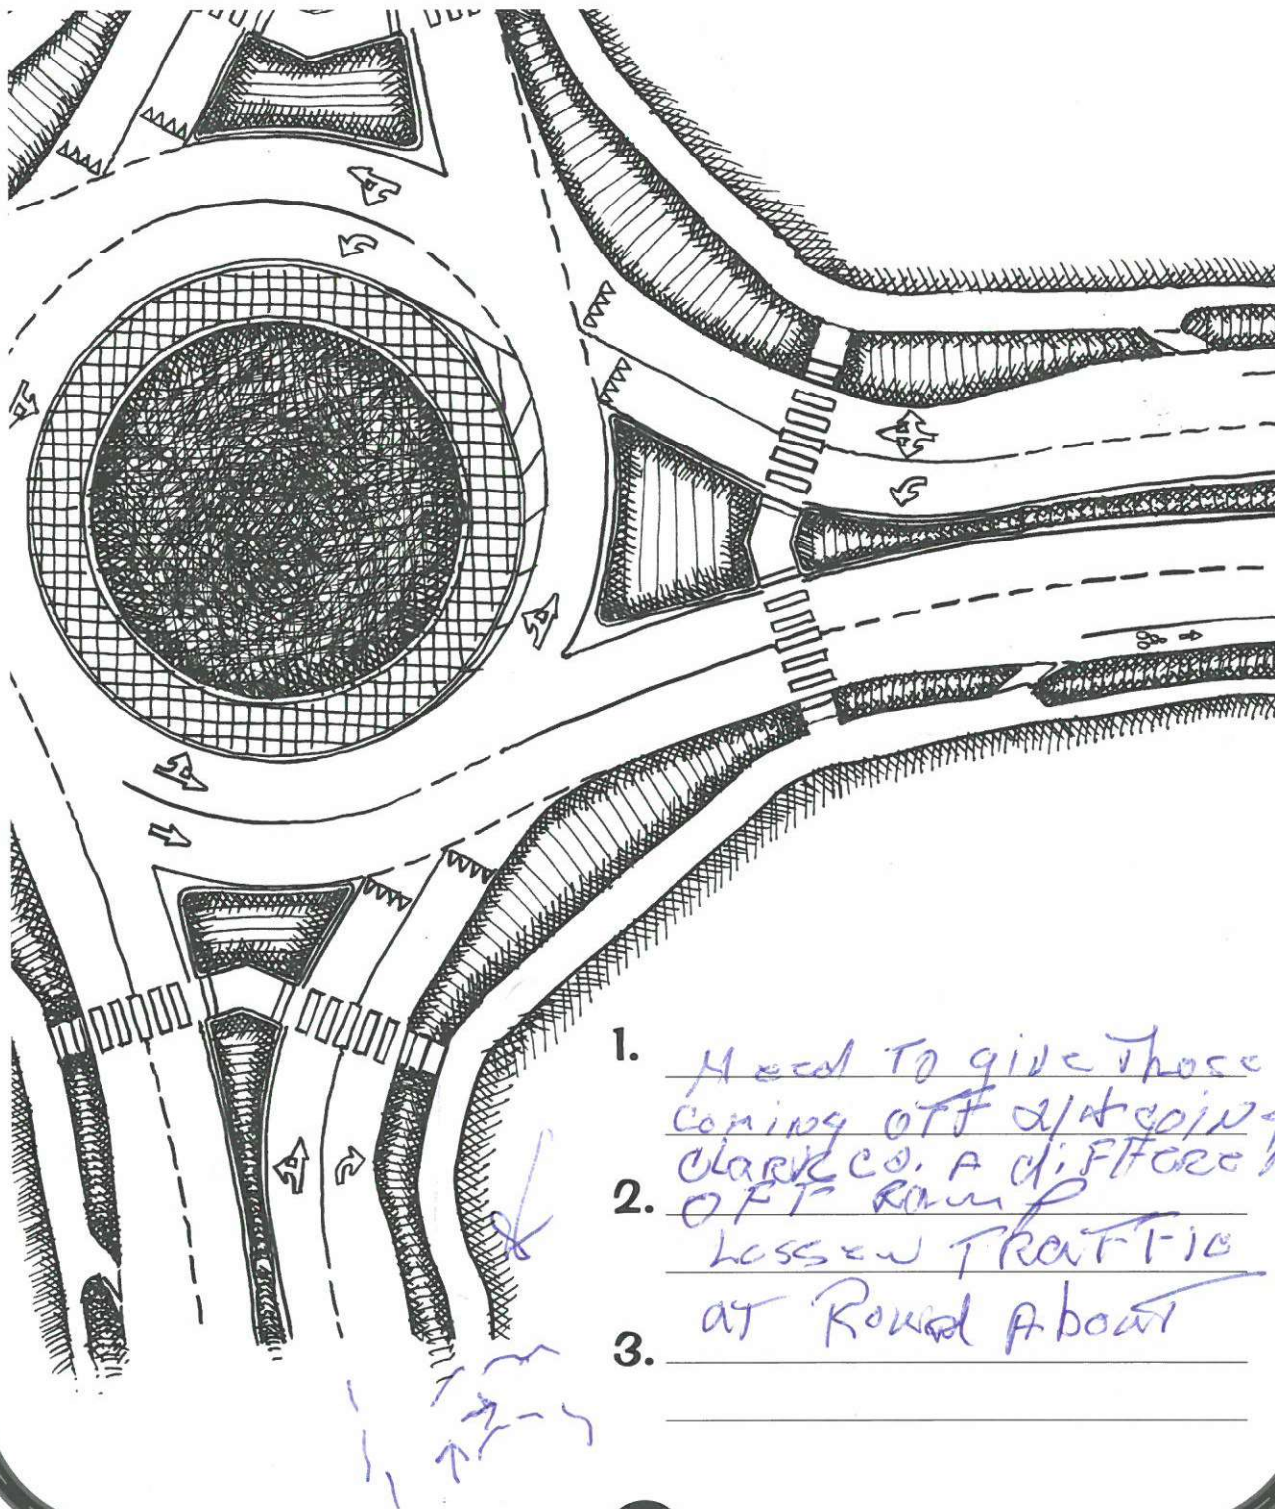

When
I'm going to
cross the street
at a roundabout
I always:

PUT THESE STEPS IN ORDER:

- _____ Make sure drivers see you—make eye contact with the driver!
- _____ Step off curb when traffic is stopped.
- _____ Wait for drivers to stop.
You've made it to the splitter island!
- _____ Repeat steps 1-2-3 to complete your crossing!

Lesson 3 Quiz:

Identify 3 Steps to Cross the Street

1. Need to give those
coming off rd going
clockwise. A difference
2. of traffic
lessen traffic
3. at round about

Round the Roundabout

Drive round around a roundabout
Be safe; one lane or two.
Stay in the lane that you arrive
Go straight, go left or U.

A roundabout is just an intersection
With a curve.
Drive round around a roundabout
Choose safely all to serve.

The traffic in the roundabout
Has got the right of way.
No stop signs round a roundabout
Just yield to them, OK?

Don't crash into the other car.
Don't cross the middle line.
Just drive around the roundabout
And exit when it's time.

You walk around a roundabout.
Don't cross across, not you!
And on a bike, just exit right
You use the crosswalk, too!

Drive round around a roundabout.
Be safe, you have a choice.
Just use your head, do what we said
And travel safe—rejoice!

Drive slow around a roundabout
It's made that way you see,
Just travel slow, get where you go,
It's safe for you and me!

The roundabout is safer than
A traffic light, it's true!
If your choice not right,
And bump you might,
Injuries are few.

When trucks drive round a roundabout
They go one at a time.
The apron helps them circulate -
They get to cross the lines.

A siren means emergency
Think fast, look - where are you?
Give them a lane, someone's in pain
And let them quickly through.

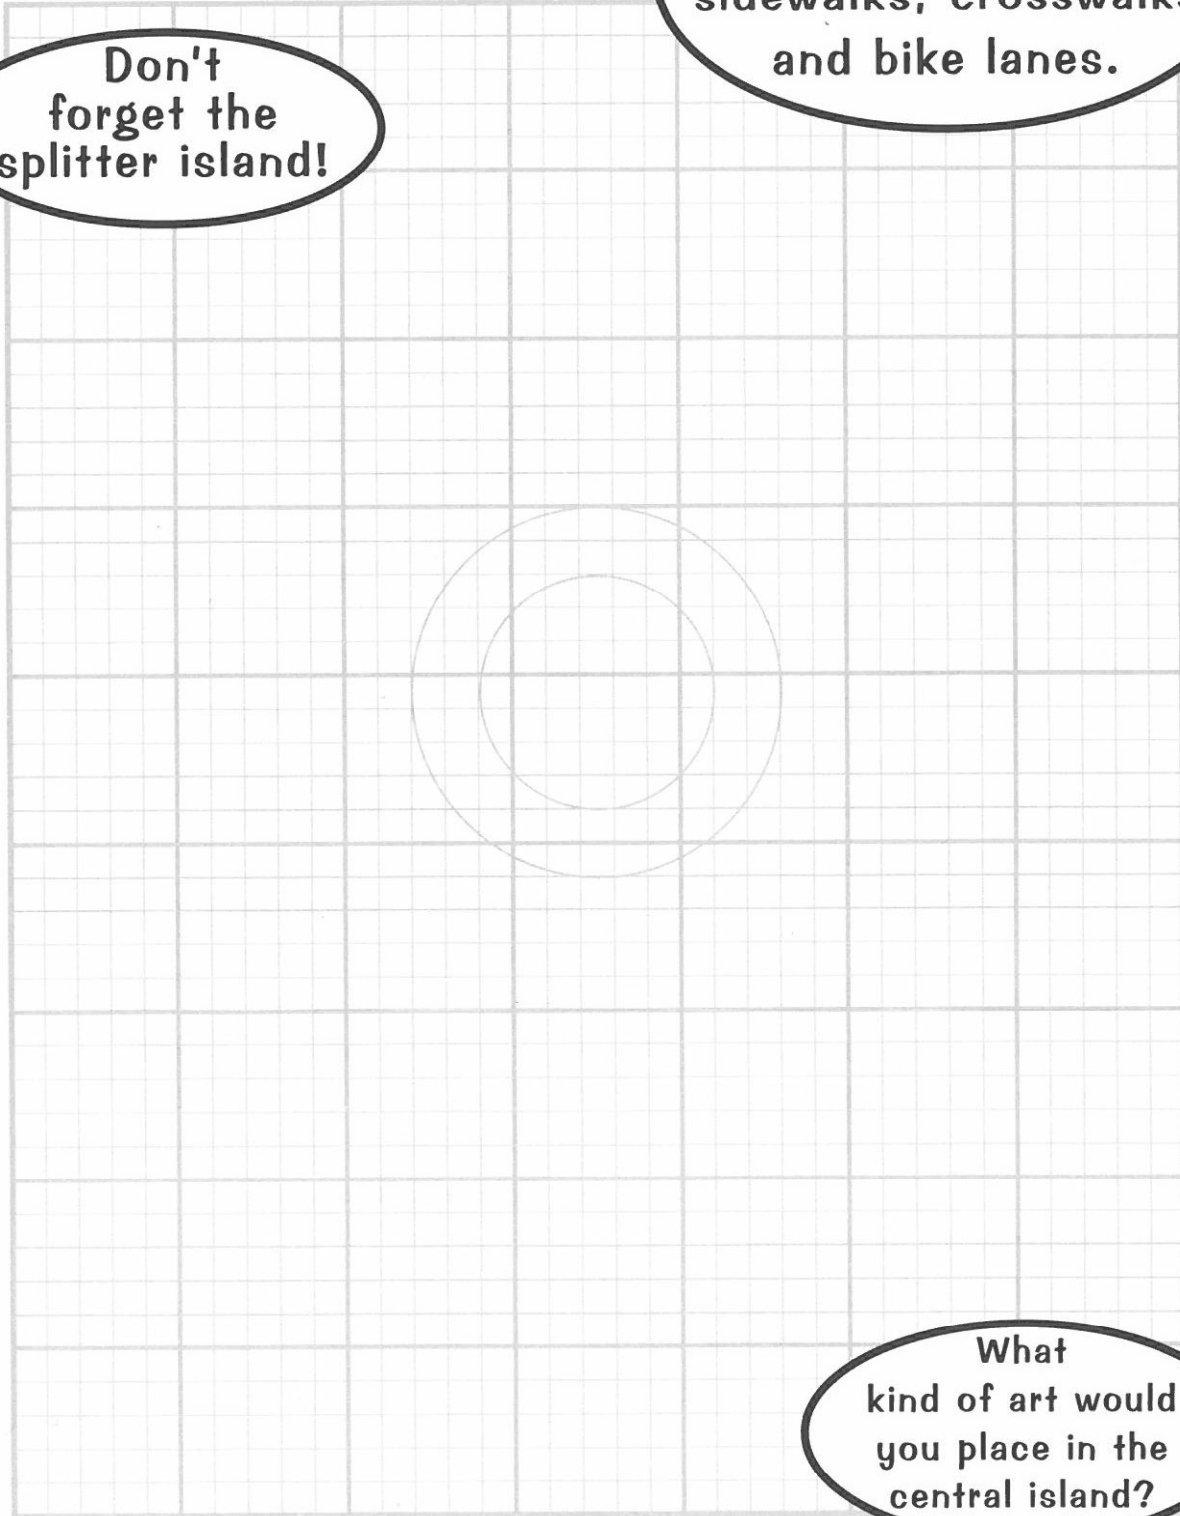

Drive round around a roundabout
Slow down, slow down, my friend.
From here, from there, from everywhere
We'll roundabout again.

Lesson 1 Quiz:

Draw Your Own Roundabout

Remember to draw the sidewalks, crosswalks and bike lanes.

Don't forget the splitter island!

What kind of art would you place in the central island?

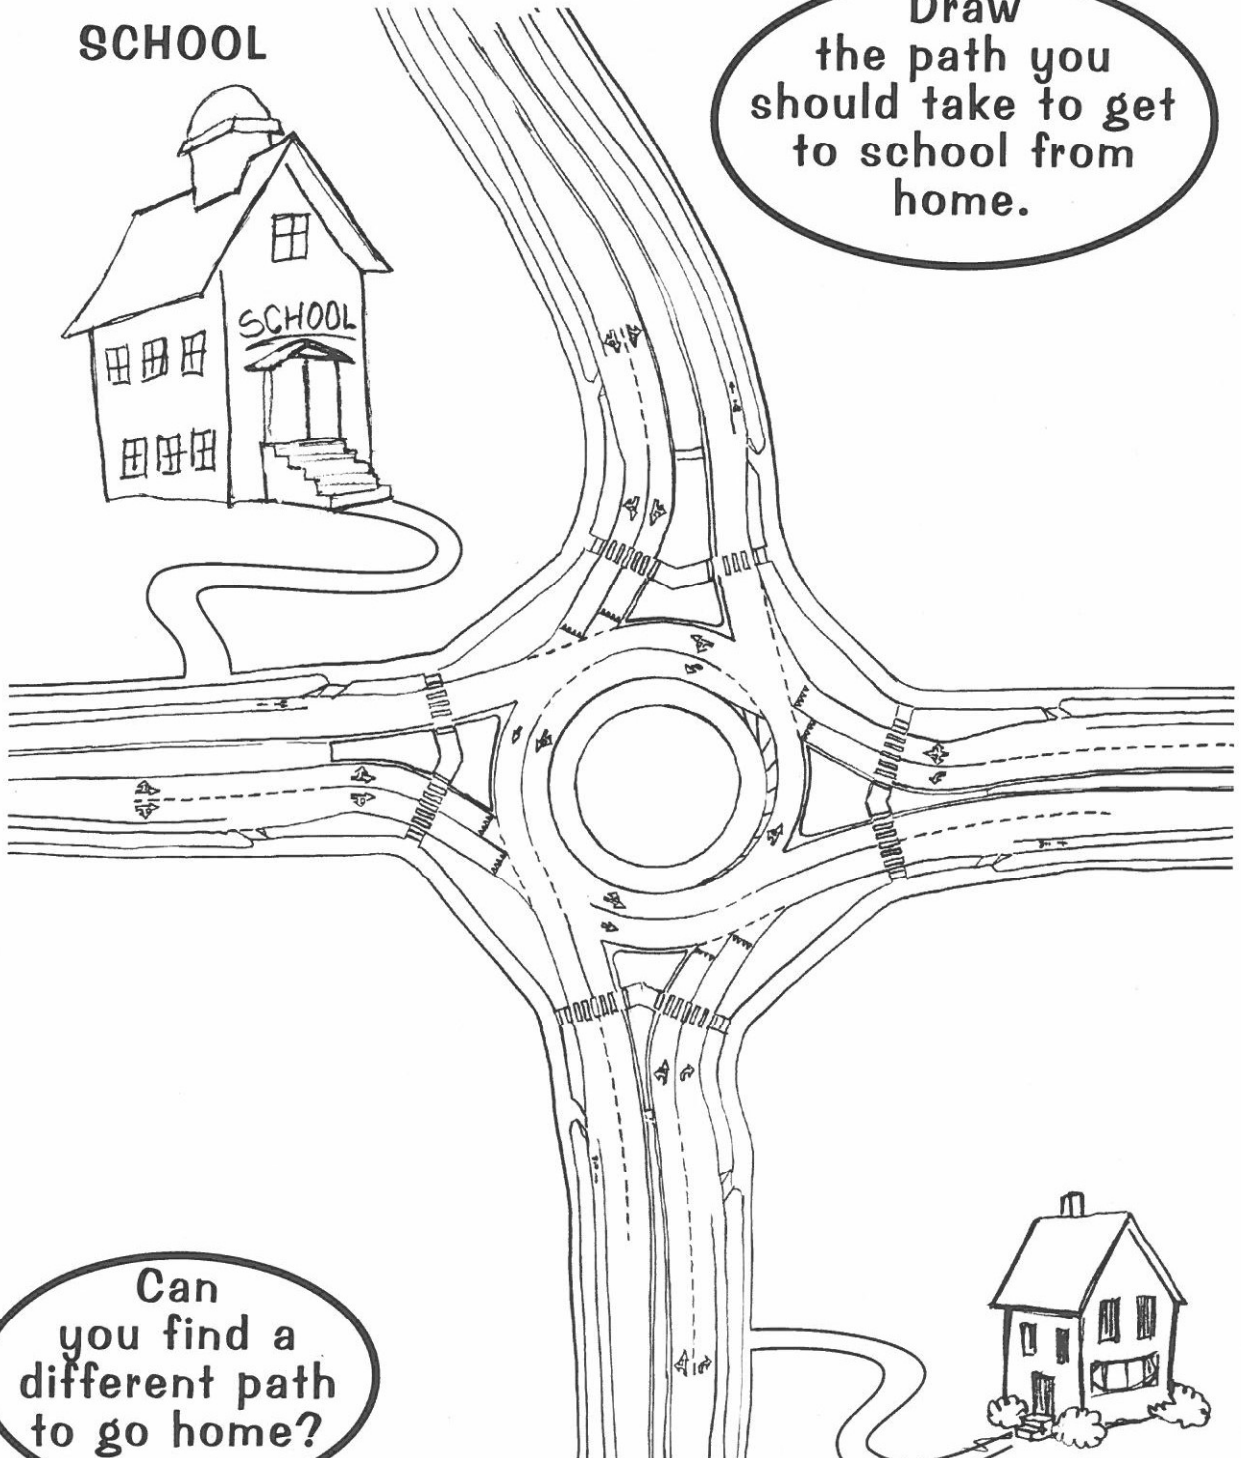

Lesson 4 Quiz:

Getting to School with the Roundabout

SCHOOL

Draw the path you should take to get to school from home.

Can you find a different path to go home?

HOME
